THE Design of the following Catalogue, is to point out a Repository to the Practitioner, or Medical Student, where he may, without any Uncertainty, be supplied with the particular Books upon the Subject of his Profession.

The Bookseller has endeavoured to render the present Catalogue fuller than his former; and if it strikes the Faculty, and Gentlemen given to Philosophical Studies, that it would improve Knowledge, and facilitate their Enquiries, to have one established Library to supply their Want of particular Books, rather than be at a Loss where to make their Applications with Success, he shall be extremely happy if his House is fixed upon for that Purpose; and they may rest assured, that every New Catalogue he is enabled to publish, will be made more valuable than the preceding, provided his Design is countenanced by THEIR ENCOURAGEMENT.

N^o 32, Fleet-Street,
August 1786.

J. MURRAY.

* * * All Orders from the Country, whether for Books in this Catalogue, or others (Post paid), shall be punctually executed.

It will naturally, however, occur to Gentlemen who are Strangers, either to accompany their Orders with a Remittance in Bills, or to refer the Bookseller to some House in LONDON, who will undertake for Payment of their Books in a moderate Time.
